THE GREAT

American Discovery

—IS—

Dr. Barber's Diapent,

THIS valuable Medicine is composed principally of Herbs by whose skilful mixing and purification properties it is when applied instantaneously diffused through the whole system allaying the most intense pain in a few minutes. You have only to try it when you will be convinced that no remedy ever offered to the public for the relief of those afflicted possesses in so high a degree the perfect Anodyne qualities. Its action in all cases is prompt powerful and effectual without the least endangering the system.

It penetrates the flesh to the bone relaxes the contracted muscular powers restoring free use to the joints and limbs which have been rendered by years of affliction almost entirely useless. It is therefore, hailed by the suffering as the greatest blessing of the age, and would ever allow himself to be without this sovereign balm after he had once witnessed its magic influence over disease, and its potency in relieving pain however severe. The perfect consciousness of its unquestionable efficacy by actual experiment makes me full in asserting its transcendent virtues. Bystanding in the numerous certificates in the hands of my agent, which were given voluntarily and cheerfully from persons of the first respectability (and their statements I admit would not avail you will find it has no equal, as it is the only, for speedy certain and lasting cure of Inflammation. It will also cure Neuralgia Pains in the Side and Back Cramp, Swellings, Numbness, Weakness of Joints, Sprains, &c. Also, Dyspepsia and all Nervous Diseases proceeding from the Stomach. Also *Dr. Barber's Cura Hemorrhoid* a sure remedy for Corns Bunions &c. &c. Sold by Druggists A. B. & D. Sands, Burr & Perry, Boston, and all dealers in Pure Medicines.

AGENCY FOR BUSINESS

WITH U. S. PATENT OFFICE,

WASHINGTON

No. 7, State Street, opposite Kilby St.

BOSTON

IMPORTANT INFORMATION TO INVENTORS—The subscriber, (late Agent of the U. S. Patent Office under the Act of 1837) detailed minutely the present advantages in applying for patents, superior to those offered inventors by others, has made arrangements, whereby, on application, drawings prepared and conducted by him, THIRTY DOLLARS (instead of *twenty* as paid back by others), will be remitted by him in case of failure to obtain a patent, and the withdrawal through him, within thirty days after the rejection. Caveats, Specifications Assignments and all necessary papers and drawings, for procuring patents in this and foreign countries, prepared and advice rendered on legal and scientific matters respecting inventions and infringement of patents.

Inventors here not only can obtain their specifications on the most reasonable terms, (generally about 50 per cent. less than those of others in the profession) but avail themselves of the experience of twenty years practice his visits to the Patent Office, an extensive library of legal and mechanical works and correct accounts of patents granted in this and other countries besides being saved a journey to Washington, the usual great delay there, as well as all personal trouble in obtaining their patents. Copies of claims of any patent furnished by remitting *one dollar*. Assignments recorded at Washington. Patents in Great Britain, France, and other foreign countries, secured through agents of the highest respectability.

R. H. EDDY, *Solicitor of Patents*.

☞ During the time I occupied the office of Commissioner of Patents R. H. EDDY, Esq., of Boston, did business at the Patent Office as Solicitor for my own patents. There were few, if any, persons acting in that capacity, who had so much business before the Patent Office, and there were none who conducted it with more faithful and efficient regard to the interest of their clients. The best interests of the most faithful Patent Solicitor in the United States, and there no better test of it in assisting inventors that they cannot employ a person more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

☞ From the present Commissioner:

☞ During the time I have held the office of Commissioner of Patents R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the office. I regard him as one of the most reliable and successful practitioners with whom I have had official intercourse.

SINGER'S

SEWING MACHINES

THESE machines have long sustained the highest reputation in the United States. THE FIRST PRIZE—A GOLD MEDAL—has recently been awarded to them at the great Exposition in the Palace of Industry, in Paris, and thus they have the World's verdict of superiority.

Great improvements have just been added, so that they run without noise, with ease to the operator, at double the ordinary speed, so that

Twice as much Work can be done in a day. The greatest clothing and shoe manufacturing establishments in the country use these machines exclusively. They are competent to perform every sort of work in the most perfect style.

As there are very great numbers of inferior or entirely worthless sewing machines of the Lerow & Blodgett, Avery, Wilson, Grover & Baker, and other patents, which have been sold but cannot be used, to any advantage we hereby offer to receive all such machines, and also unimproved ones of our own manufacture, *in exchange for new and improved sewing machines*, on liberal terms. All old machines thus obtained by us will be broken up and destroyed. For particulars apply by letter or personally at our New York Office.

N. B. Local Agents wanted to make sales of our improved Sewing Machines. To persons properly qualified for the business a rare opportunity for profitable and pleasant employment is offered.

Gov. Reeder's Views upon Kansas Matters.

It is stated by recent letters from Washington, that Gov. Reeder takes a moderate, yet firm position in regard to the late transactions in Kansas. It is known that he was originally in favor of the Nebraska bill, and hence he does not regard the Nebraska law and the principles which it embraced, as the origin of the troubles in Kansas. The real cause of the disturbances, he thinks, is the active and criminal interference of the administration and its subordinate agents, to defeat the will of the people. This intervention he hopes will be counteracted by the decisive action of Congress. He admits that the duty thrown upon the House requires great firmness and nerve, but as the peace of the country clearly depends upon the exercise of those qualities, he relies upon finding them. Gov. Reeder does not believe that Shannon has the authority of the President for proclaiming the existence of a war policy in Kansas, that he had any warrant for declaring, as he did at the late convention, for sustaining the cause of the Missouri mob by supplies of money and arms. He thinks that Pierce has not the nerve for so extreme a proceeding, and that he dare not risk the hazards of civil war, even in respect to his own prospects. Perhaps this is one aspect a correct view, but the administration of Kansas has been farmed out to Atchison, who has the nerve to inflict whatever his followers have the hardihood to execute.

THE MEADOWS OF AMERICA.—Governor Wright, of Indiana, says that our grass crop is not properly appreciated. No crop approaches it near a spontaneous yield, and none yields so large a profit. The hay crop of the United States in 1850 he computed at 10,000,000 tons—which is worth $150,000 000, while the whole cotton crop is valued at only $128,000,000. Of this crop more than half is produced by four states—New York, Ohio, Indiana and Illinois. The grain crop which is used for pasturage is at least as valuable, so that all it is worth annually over $300,000,000.

Few people would believe that the grass crop of New York is worth more than the wheat, and yet statistics show that such is the fact.

WAR INVENTIONS.—It is reported that an American engineer recently arrived at St. Petersburg with a cannon of his invention, capable of doing tremendous damage. The Emperor has ordered the invention to be tested. It is said that the range of this gun, when in use, is more than four thousand metres, which, if true, would exceed anything hitherto known. A new musket is also spoken of, the invention of the sub marine engineer, has, it is said, discovered the means of throwing congreve rockets and other projectiles to an enormous distance, and great success is expected from them against the fleets. The foundary of St Petersburg has been placed at his disposal for experiments.

LECTURE FROM THEODORE PARKER.—The Fifth lecture of the Independent Course will be delivered by Theodore Parker, on Tuesday evening, (11th inst.) Tickets for the remaining six lectures will be put at 50 cents.

SAD DESTITUTION.—The citizens of Nantucket were obliged to do without turkeys on Thanksgiving day, as there were none to be obtained on the island.

Letter from a Reform School Boy.

The following is a copy of a letter, received in this city, from a boy who was placed in the State Reform School about a year since. It affords additional evidence of the beneficial tendencies of this institution, upon the minds and characters of the inmates,—the largest portion of whom it will be the means of saving from a life of crime and misery. The Reform School is now filled to nearly its entire capacity.

STATE REFORM SCHOOL,
Portland, Nov 29, 1855.

DEAR FRIEND,—I now seat myself down to inform you of my health, which is very good at present, and hoping these few lines will find you in a good health as they have me. Since I have been here I have learned very rapidly. When I came here I could not write my own name, and I have only been here one year and six months, and now I can write to my friends. This is some of my own writing. I read in the 2d Reader when I first came here, and now I read in the 4th Reader. The boys have a very good chance to learn here, and Mr. Lincoln does all in his power to have us learn. We have good school masters here. I have left off all my bad habits. I have not swore for six months and I don't think I will again. We have a large chapel here, where we have meetings and Sabbath School every Sabbath. There are twenty two teachers come from Portland every Sabbath, for nothing, to give us instruction. There are 233 boys here, and they are all learning very fast. We had a good time Thanksgiving day.

Write as soon as you get this, and not fail to. Give my love to my folks, and to all of your family, and to all the boys around there, and tell them if they want to make anything of themselves, to come here. My love to all.

Respectfully Yours,
JOHN F STEVENS.

THE WARRIOR OF SWEDENBORG.—Rev Augustus Chassell, M A., minister of the Church of England that just given £3,000 to the Swedenborg Printing Society, London—a society for printing and publishing the writings of Swedenborg. The same gentleman a sister has also endowed the same society with £24 a year for ten years. General Count Le Casas, the friend and associate of Napoleon at St. Helena, has recently left a considerable sum of money for the purpose of defraying the expenses of translating and publishing the works of Swedenborg into French. A few admirers of Swedenborg in England have subscribed subscriptions to the amount of £1,600, to Dr. Taffel, of the Tubingen University, Wurtemburg, to assist in translating and publishing the writings in German.

DEMOCRATIC ECONOMY.—A correspondent of the New York Tribune, writing from Memphis, gives some details which show great extravagance in the transportation of army supplies since the last train of twenty-two wagons left Memphis for Forts Smith, Arbuckle, with about 175 recruits, with their baggage, &c. These wagons were hired at the rate of $16 per day for each wagon, returning, together with all the teams, and were paid for at the rate of $32,00 for moving 175 men a distance of 500 miles. One of the wagons was laden with pickles, and the cost of transporting a load of pickles for the same distance is therefore about $1100—a pretty little sum.

"Retrenchment and economy," was one of the loudest promises made by the friends of the Pierce administration, when it came into power. We have heard but little of it since, however.

A Paris correspondent of the New York Commercial, under date of Nov. 5, gives an interesting account of the closing ceremonies of the great Exhibition, and adds the paragraph:

"Yesterday, three gentlemen connected with the American commission, Mr. W. J. Valentine, formerly of Boston, and now a banker in Paris, and President of the commission, Mr. Marshall Woodsof Rhode Island, commissioner and juryman in the fine arts department, and Mr. Alexander Mattemare, American commissioner, who has been very active in the American department, received invitations to go last night to Prince Napoleon's. I arrived there, they were astonished to find that they were, with many others, to receive from the French Emperor the title of Chevalier of the Legion of Honor; and to day our three colleagues appeared at the Exhibition with the star on their breasts."

ONE HUNDRED MILLIONS OF LOGS.—The New York Times says:

We had the curiosity to make a little inquiry as to the number of logs annually brought into this city, and, for the purpose, called upon several of the largest egg merchants. The books of two of these contain an aggregate of receipts and sales for twelve months past, of nearly twenty-six millions. Further inquiry showed that this is not quite one fourth of all sold here. The annual consumption of eggs in this city may be set down, in round numbers, at half a hundred millions.

The Times says the price has averaged seventeen cents per dozen through the year.

DEATH OF A NEPHEW RELATIVE OF THE LATE DANIEL WEBSTER.—The New York Express of Monday evening says:

On Sunday morning, about 11 o'clock, the body of W. G. Webster, well known as a newspaper reporter in front of the Times office, was found lying in a pool of blood on one of the stair landings in the boarding house No 66 Gold street. Mr. Webster had his legs amputated many years ago (both being frozen), while endeavoring to cross the rivers in Maine, every winter, when they were frozen over. There is no doubt that while going up stairs on Saturday he slipped, and was precipitated to the bottom. His spine was broken, and he was terribly bruised about the head and body, and must have been killed instantly. An inquest was held yesterday and a verdict of accidental death returned. He is said to be related to Hon. Daniel Webster, and a man of education. The loss of his limbs forced him to gain his humble livelihood in an humble way. He was every day to be seen, ragged and dirty. His misfortune, his singular attention to business, and unpretending conformity, attracted much attention and made him as much liked as he was universally known.

A MARRIAGE IN GEORGIA.—After Franklin made his great discovery of the identity of lightning and electricity by means of a kite sent up into the air during a thunder-storm, many philosophers eagerly sought to repeat the experiment. Among these, Professor Richman, of St Petersburg, was the most notable and fearless. In pursuing a series of experiments on atmospheric electricity, he erected what was called a gnomon, which consisted principally of a Leyden jar communicating with an iron rod, which rose some feet above the roof of his house and an electrometer, consisting of a linen thread with half a grain of lead tied to it. Of course when the gnomon was charged with electricity and communicated that fluid to the thread and the metal, the latter, being equally moved would be repelled from the gnomon, and its angular accent on the face of a divided quadrant or index indicated the force of the electricity which had been accumulated. On the 6th of August, 1753, the professor, while at a meeting of the Academy of Sciences, heard the sound of distant thunder, and having previously made every arrangement for making experiments, he instantly quitted the assembly, taking with him his engineer, Solokow, a middle draught of whatever might appear interesting in the phenomenon. On their arriving Richman's house the plummet of the electrometer was found elevated four degrees from the perpendicular, in other words, the electricity in the gnomon had accumulated to such an extent that it had repelled the lead to the distance mentioned. While the philosopher was in the act of describing to his companion the dangerous consequences which might follow if the lead rose to 45 degrees, a tremendous clash of thunder shook the city. The beadle was heard over the gnomon to observe the indications of the electrometer, and in this position, with his head a foot from the iron rod, a globe of bluish white fire, about the size of Mr Sokolow's hat, shot from the rod to the professor's head, accompanied by a report as loud as that of a pistol. The discharge proved fatal: he fell back on a chest and expired in a moment. Sokolow was stupified and benumbed by a kind of vapor which had generated, and his clothes were covered with burns marks produced by the red hot fragments of a metallic wire which had struck the person. On recovering himself, he rushed out of the house, and made known the terrible disaster which had taken place.

A letter from a correspondent of the London Times, dated Alexandria, Nov. 3, contains the following:

Some workmen who are boring for Mr. de Lesseps, on the spot which he proposes to take for the Suez Canal scheme, have come upon the Red rock, which exists millions of the substrata set forth by him in his pamphlet on the subject, to which he assumes that the canal will be dug entirely out of sand or light soil. Ancient history informs us that in the year 610 before Christ a canal to connect the Mediterranean and Red Sea was commenced and abandoned in 12 months after a loss of 120,000 men.

THE GRAPE CROP OF CALIFORNIA.—The grape crop of California is said to be very large this year. Last year there were shipped to San Francisco from Southern California not over 500 tons of grapes; whereas this year it is confidently believed the shipments will reach 1500 tons, or the manufacture of 200,000 gallons wine, which will be manufactured at Los Angeles. The grapes at San Francisco average from 8 to 12 cts. per pound to the trade, and from 25 to 25 cts. at retail. The most extensive arrangements have been made at Los Angeles for the manufacture of the juice of the grape.

EUROPE.—Paris.—The correspondent of the New York Times gives the following singular information in regard to the mental delinquencies and the immorality which follows their punishment in the French capital:

There is one anomaly in French character which it is difficult to understand. In no civilized country in the world do the obligations of the marriage contract sit so lightly on the shoulders here, and yet in nine cases out of ten where a husband with avowed premeditation kills his wife's paramour, or a wife a husband's mistress, a complete acquittal is rendered by the jury. In the protection of the honor of the family the largest liberty is given to the lynch law principle; the family is positively made the conservator of its honor, while in everything else the law is pushed to a point of refinement that would scarcely be tolerated anywhere else. On Saturday last an Italian named Pitta was tried for the murder of his wife, and acquitted on the ground that he was acting in the defence of his family honor. It was proven that his wife, who was remarkably handsome, had for a long time kept up relations with another man and the husband, watching for an opportunity, shot her while in conversation with her paramour. My tailor, the head of a well-known establishment on the first floor of the house where I live, ascertained, three or four years ago, that his wife was unfaithful to him, and pretending to start on a voyage to London, he returned in the night, and, by means of his night key, suddenly entered his wife's chamber. There he found his next-door neighbor in bed with her, and discharged two pistol balls into the body, which did not dispatch him; he stabbed him till he was dead. Mme. —— was tried and acquitted, and now lives peacefully with the same wife on the second floor above me, a respectable and good citizen. The case of MOYES and MORTON, two correspondents of London journals, which occurred last year, must yet be fresh in memory. Bowyer's wife told her husband that her child, which he was caressing with Morton, was whereupon the husband seized a knife, and rushing upon his friend Morton, who was in an inner room, killed him. Bowyer escaped to England, where he remained a few months, and then returned to Paris, delivered himself into the hands of justice, and was acquitted.

The Civil War in Kansas.

Correspondence of the Baltimore Sun.

WASHINGTON, Tuesday Dec 4, 1855.

The intelligence of the serious disturbance in Kansas and the action of the President in ordering United States troops to the theatre of action for the support of the Territorial authorities is well calculated to cause excitement here. It has the immediate effect to influence the tone of the outstanding Post Office Sellers, and its influence will be felt not only in the organization, but in the legislative action of the House. Its influence is not however confined to one side of the House and it will render more difficult than ever any compromise between the conflicting elements.

Kansas is used as a subject of Governor Shannon at present as was have been resorted by the Abolitionists but it is known that a party of them recognisant all the laws of the Territorial Government though they do not resist their execution by violence. They do not care before the Courts, nor resort to the Courts of Probate. But I have understood that there is a tendency to resist the final execution of the twelfth section of the sedition law, which provides for the punishment of any person with fine and imprisonment who may in words, spoken or deny the slavery exists legally in Kansas.

A person was convicted under this act and the Free-State people had determined not to resist the law until sentence should be passed, when they would interfere to prevent its execution. So it is possible that this is the cause of the present disturbance.

ANOTHER "CONFIDENCE MAN."—The Burlington, (Vt.) Free Press gives a lengthy account of the doings in that town, of a swindler calling himself the "Baron de Percy," and professing to be the son of "Hon. Capt. Murray, of Queen Victoria's Household Guards." He professed to be a convert to Methodism, and asserted that he had recently come into possession of a fortune of forty five thousand pounds sterling per annum. He went so far as to preach in the Methodist church, to a large audience, many of them doubtless attracted by the novelty of an English Baron in a Vermont pulpit. He was called upon by the first citizens, whom he invited to shoot game with him next year on the preserves of his cousin, the Earl of Dalkeith in Scotland, &c, &c, with other similar humbugs. The upshot of the matter was that he borrowed money, run in debt and then ran away, and people found they had been egregiously duped.

MANLY LECTURERS.—We perceive, in our exchanges, the names of several young gentlemen of this state who are taking the field as Lyceum Lecturers. Among them are William C. Williamson, Esq., of Belfast, Melville W Fuller, Esq., of Augusta, and Charles H. Foster, Esq., of Orono. The subject of Mr Williamson's lecture, we understand, is Charles Dickens. We have not learned on what subject the other gentlemen propose to enlighten the public. We have a personal acquaintance with them all, and can speak of our own knowledge of their ability and competence as lecturers. We hope to be able to record the fact of their appearing before the public many times during the winter.—*State of Maine*

A CAPTAIN OF CAPTAINS.—Capt Jesse Attwood, died at Orrington, about 28 years since, aged 84, was the father of six sons, four of whom were sea captains, and one of whom is the father of six sons, all sea captains. He was the father and grandfather of 28 captains, 26 of whom were sea captains and sixteen of whom bear the name of Attwood. All the sea captains now living reside in Orrington and Hampden, one mile. Captain resides in Kenduskeag. Captain Attwood was master of a vessel which went from Boston to Halifax for the first exchange of prisoners in the Revolutionary War. He assisted in throwing up the fortifications on Dorchester Heights.—*Journal.*

GAMBLING IN CHICAGO.—O T Caldwell, conductor on the railroad to Burlington, has been convicted of embezzlement in that city, and sentenced to a year's imprisonment in the penitentiary. The Chicago Democrat states that the following night a number of gamblers went to the Judge and threatened him if he did not grant him a new trial, and if he did not recommend him to the mercy of the Governor &c., that he should never be taken to Alton.—That paper also states it is believed that Caldwell will make developments that will startle the whole community respecting the extent to which gaming is carried on in that city, and to which clerks and others in confidential positions expend money which they could not possibly come honestly by. The railroad companies have resolved to discharge all of their employees who have taken sides in this matter, or are in the habit of visiting gambling houses. Indeed, some have already got their discharges.

From an English Almanac we cut a receipt for mending china, a long time since, and the opportunity having occurred for trying, we found it admirable, the fracture scarcely being visible after the article was repaired. Take a very thick solution of gum arabic in water, and mix into it plaster of Paris until the mixture becomes a viscous paste. Apply it with a brush to the fractured edges, and stick them together. In three days the articles cannot be broken in the same place. The whiteness of the cement renders it doubly valuable.—*Ex.*

INTERESTING TRIAL AND VERDICT AT MEMPHIS.—A verdict has just been rendered in Court at Memphis, which will be viewed as right by some, and wrong by others, according to the preconceived opinions they are imbued with, and the latitude in which they dwell.

Several months ago a tragedy—a wild and fearful scene occurred at Memphis. Mary Moriarty, an Irish servant girl, attacked with a dagger and slew on the spot John Sheenan, her seducer. Sheenan had insidiously insinuated himself into the confidence of the victim, destroyed her virtue, and blasted her hopes, under pretence of marriage, and then brutally forsook her. She sought him out and reminded him of his solemn promise; she besought him, by every consideration of honor to himself and justice to her, to repair the great wrong done her, as far as lay in his power, by making her his wife, as he had promised. The seducer ecornfully rejected her proposal, and added insult to injury, by taunting her with her shame. She could not endure this. She went home, armed herself with a dagger, sought her destroyer again, sheathed the glittering weapon in his bosom, and then drew it forth, reeking with retribution, brandished it aloft in fierce exultation over the bloody deed. She made no concealment of the act, did not seek to palliate it by the least denial of deadly intent, but *justified*, it on the ground of the terrible provocation that incited her to the deed—on the ground that the slain man had injured her far more by destroying her virtue than she had him by destroying his life. The jury took, the same view of the case, and, without consulting longer than five minutes, rendered a verdict of "Not guilty."—*St Louis Trend Nov 26*

FIENDISH ACT.—On Monday evening, while the horse and buggy of Mr William Marston were standing hitched in front of Boutelle's Block, somebody cut each rein and the breeching by each side so nearly off as to render it probable that both would give out on the way home. Fortunately the leather was of good quality, and the small portions left uncut carried all safely home and no discovery was made till next morning. But a single stroke with a sharp knife was made in each case, so carefully measured as to give evidence that the hand was one that did not tremble in its villainous work. No other injury was done to the harness—showing that the object was to destroy life rather than property. Mr Marston knows no cause for the act—but offers a reward of thirty dollars for any information that will lead to the conviction of the culprit. He deserves to be taught in California and punished under a branch of Lynch Law.—*Waterville Mail.*

LIBEL SUIT.—*Attorney vs Newspaper Publishers.* One may enter a new trial in the case of White against Potter (a suit for libel in which a verdict was returned for defendent,) Judge Storer remarked that every man's reputation for soberness was a matter of public discussion connected with the commercial business of the country, and for a publication, such as that charged in defendant's newspaper, was made from good motives and without malice and the party made all the reparation in his power after warning the jury might well refuse to give damages, or merely nominal damages. Newspapers in these days have become the chronicles of all public events, and whatever is proper for business men to know the edited for, being guarded in the manner of stating facts, and publishing nothing but what he supposed at the time he had good authority to state would have the right to publish in his newspaper. But if he published anything, of his own wantonly, unnecessarily and with an intention to injure, he would of course be liable.

LETTERS AT THE SUPERINTENDENCY.—Since the late consolidation of the lines of telegraph between Halifax and New Orleans Mr James Eddy, the late obliging Superintendent of the Maine Lines, has been called to the superintendency of all the lines. The post thus vacated by Mr Eddy has we are happy to learn been filled by the appointment of Mr Asa F Woodman, an able, gentlemanly and trustworthy operator, and with other qualities well befitting his new and increased responsibilities. Mr Woodman, is a young man and a graduate in the printing office of the Advertiser.

It is but justice to state that Mr Eddy has ever evinced a disposition to accommodate the public, and we have no doubt the new station which he is to occupy in New York city the same disposition will be maintained. We part with him in this city with much regret and he has the best wishes of our fellow citizens for his future prosperity.—*Portland Advertiser*

FAILURE.—The Traveller mentions that considerable surprise was excited by the announcement, on Tuesday, of the failure of W P Hewkesbury, bookseller on Washington street. His liabilities are stated at $100 000. His book business however, is but a small portion of the business he has endeavored to carry along.—*Boston Transcript*

Romance of the Post-Office.

On the subject of unjust complaints against the carelessness or culpability of post office clerks, Mr. Holbrook relates the following —

THE LITTLE BIT.

A lady of very genteel, and respectable appearance called one day on a prominent New England postmaster, with a letter in her hand, which she insisted had been broken open and re sealed. She handed the letter to the postmaster, who examined it, and appearances certainly seemed to justify her assertion. She further declared that she knew well which clerk in the office had broken it open, and that he had previously served several of her letters in the same way. Upon hearing this, the postmaster requested her to walk inside the office, and point out the person whom she suspected.

Such an unusual phenomenon as the appearance of a lady inside the office produced, as may be supposed, a decided sensation among the clerks there assembled. Nor was the sensation diminished in intensity when the postmaster informed them that the lady was there for the purpose of identifying the person who had been guilty of breaking open her letters!

This announcement at once excited the liveliest feelings of curiosity and solicitude in the mind of almost every one present, and each one, conscious of innocence, indulged conjectures as to whom that somebody else might be, whom the accusing angel (?) was to fix upon as the culprit.

All their conjectures fell wide of the mark. After looking about for a moment, the lady pointed out the last man whom any one in the office would have suspected of such an offence—one of the oldest and most reliable of their number.

"That's the person," said she, indicating him by a slight nod of the head, "and if he persists in making so free with my letters, I will certainly have him arrested. Why my letters should always be selected for this purpose, I cannot imagine, but if any more of them are touched, he will wish he had let them alone."

This direct charge, and these threats, produced a greater commotion among his fellow-clerks than in the mind of the gentleman accused. Waiting for a moment, after she had spoken, he broke the breathless silence that followed her words, by saying, calmly,—"Mrs. ——, I believe?"

"That is my name sir."

"Have you concluded your remarks, madam?"

"I have, sir, for the present."

"Then, madam, I will take the liberty to inform you that your husband is the person on whom you ought to expend your indignation. He has, at different times, taken several of your letters from the office, opened and read them, and after re-sealing, returned them to the letter box, having made certain discoveries in those letters, to which he forced me to listen, as furnishing sufficient ground for his course, and justifying former suspicions. He earnestly requested me never to disclose who opened the letters, and I should have continued to observe secrecy, had not your accusation forced me to this disclosure in self defence. If you wish to have my statement corroborated, I think I can produce a reliable witness."

The lady did not reply to this proposition, but made a precipitate retreat, leaving the clerk master of the field, and was never afterwards seen at the post office.

THE DEAD LETTER.

The following is contributed by "Dave," of the Columbus (Ohio) post office —

During my term of service at the general delivery of this office, it was my custom, up on receiving dead letters from Washington City, to make a list of the names of the persons to whom they were addressed, and stick it up in the lobby of the office, with a notice, "Call for Dead Letters."

One day an elaborate specimen of Erin's sons, whose brawny fist and round shoulders seemed to denote a construction with an eye single to American railroads, lounged into the office, and up to the board containing the aforesaid list. He looked at it a moment, and burst into tears. I spoke to him through the window, and asked him what was the matter.

"Oh! Mr Postmaster, I see ye have a dead letther for me. I spect me sester in Ireland's dade, and it's not a wake since I sint her a tin pound note to come to Amerikay wid—and kapt ye tell me how long she's bin dade, Mr Postmaster?"

I asked him his name, found the "letther," and after a request from him to "rade it, sir, and rade it asy if you plaze," opened it, and told him not to cry, that his sister was not dead, but that it was a letter written by him self, and directed to Michael Flaherty, Boston, Chicago.

"And is Michael dade, Mr. Postmaster?"

"No, I guess not," said I.

"Well, who is dead, sir?"

I explained to him that letters not taken from the office to which they were addressed within a certain time, were sent to what was called the Dead Letter Office at Washington City, and from thence, if containing anything valuable, to the persons who wrote them.

"God bless ye for that, sir, but Michael lives in Chicago."

I told him I would not dispute that, but Boston and Chicago were two distinct cities, and the letter was addressed to both, and that Boston being the first named, it had been retained there, and his friend had not received it.

"Sure and I thought Boston was in Chicago, and that's what we call a dade letther, is it?" Faith and I thought it was. Bridget and not the letther, was dade. You see, Mr Postmaster Michael he writ home to the ould folks that he lived in Chicago, that he had married a nice American lady, that she was a sea-cook on a, stanceboat, and they called her a nager. So when I started for Ameriky, the ould molder Michael's mudder, she gave me these illegant rings, (the letter contained a pair of ear rings,) to give Michael's wife for a present. When we landed at Boston, I wrote Michael the letther, tould him I was going to Columbus to live, put on the name—Michael Flaherty, Boston, Chicago, and put it in the post,—and sure here it is, and Michael's sea cook nager niver got it. Bad luck to the ship that fetched me to Boston, Mr Postmaster."

After offering to "trate me for the trouble" he had caused me, he left, and ever after, when he mailed a letter, he brought it to me to put on the address, "Because he didn't understand these dade letthers."

Would You be Young Again.

In the Modern Scottish Minstrel by Charles Rogers L L D., just published by A & C Black of Edinburgh, are several contributions of Caroline, Baroness Nairn authoress of the The Land o Cockpen and The Land of the Leal. The following composed in 1842, when that lady was in her 70th year, is published for the first time:

Would you be young again?
So would not I—
One dear to memory given
Of heart I'd be
Life's dark flood forded o'er,
All but at rest on shore,
Say, would you plunge once more,
With hope so nigh?

If you might, would you now
Retrace your way?
Wander through stormy wilds
Faint and astray?
Night's gloomy watches flee,
Morning all beaming red,
Hope's smiles around us shed,
Heaven aware—away.

Where then are those dear ones,
Our joy and delight?
Dear and more dear than now
Hidden from sight
Where they rejoice to be,
There is the land for me!
Fly, time, fly speedily—
Come, life and light.

Thrice-Weekly Republican Journal.

During the approaching session of the Legislature the undersigned will continue the publication of the THRICE WEEKLY JOURNAL, being Volume XII of the same.

The result of the recent election, and the political character of the majority of the members chosen to the Legislature, will give to the proceedings of the session a weight and importance of interest—

According to the avowed intentions of the dominant parties the whole policy of the system of 'Liquor Prohibition" will be pushed under discussion, with the view of repealing the present statute, and enacting in its stead a law more in accordance with *their* views of practical wisdom. That this effort will give rise to a prolonged discussion, interesting to every citizen, and especially to every friend of temperance, no one can doubt. For this reason we shall spare no pains or expense in furnishing to our subscribers full and accurate reports of all that may be said and done in the Legislature. To do this entails upon us a heavy cost, and a liberal subscription list is all that will save us from pecuniary loss.

In view of these facts, we look with confidence to our Republican friends throughout the State to aid us in obtaining subscribers. Especially do we solicit from each Republican member of the Legislature that personal effort in his locality, without which a remunerating list cannot be secured.

The numerous lines of railroad which now traverse the State in all directions will enable a very large proportion of our subscribers to receive their papers a few hours after publication. This fact renders a subscription to the Thrice-Weekly more desirable and satisfactory than in former years.

The Thrice Weekly Journal will be published on *Monday, Wednesday,* and *Friday* mornings, and transmitted with the Daily Weekly Age and thus furnishing a daily Legislative paper.

The price will be ONE DOLLAR for the session, as usual payable in advance.

It is desirable that the names of subscribers accompanied with the money, may be forwarded at or before the commencement of the session.

Thrice-Weekly Age—1856.

The Legislative Journal will be issued from the Age office by the undersigned, every Tuesday, Thursday and Saturday, during the session of the Legislature to assemble on Wednesday January 2, 1856. The change in the political complexion of affairs and the important measures which will be acted upon will render this an uncommonly interesting and exciting session. We shall endeavor to give accurate accounts of all the proceedings of the several branches, and reliable reporters having been secured to that end.

The reading matter of the Weekly Age will also be furnished subscribers to the Legislature paper during the period of its publication, and we shall take care to lay before our readers the latest intelligence from Congress to whose deliberations unusual interest at this time attaches as well as from Europe and the state of war.

The price will be ONE DOLLAR for the session payable in advance.

WASHINGTON, 8th.

House. Resumed voting for Speaker.—25th ballot—Banks 80, Pennington 8, Richardson 73, Fuller 23, Thurston 3. 29th ballot—Richardson 73, Banks 97, Fuller 28, Pennington 6, remainder scattering. 30th ballot—Richardson 73, Banks 98, Fuller 28, scattering 20. 31st ballot—Richardson 72, Banks 97, Fuller 29, scattering 21. 32d ballot—Richardson 72, Banks 100, Fuller 30, scattering 19. 33d ballot—Richardson 73, Banks 100, Fuller 30, scattering 19. Adjourned. At the close Mr. Campbell announced that there would be a Nebraska meeting in the Hall this evening.

Senate. Mr. Sumner presented the remonstrance of Com. Joseph Smith, against the action of the Naval Board, in placing him on the retired list. Wm Hickey was appointed Chief Clerk, and J. H. Nicholson Reading Clerk. Adjourned.

Washington Matters.
WASHINGTON, 8th.

An extra mail for California and Oregon will be despatched by the steamship St. Louis to leave Norfolk on the 13th inst., with the 9th Regiment of U. S. Infantry. The connection will be made at Panama, with the steamship Oregon. An extra steamer will also leave San Francisco for Oregon, immediately on the arrival of the steamer.

Francis P. Blair has written a letter to the Republican Association of Washington, in response to an invitation to preside over that organization, taking strong ground against the extension of slavery, and urging upon the Republicans to unite firmly in an effort to secure Kansas.

It is said that Mr. Wheeler's recognition of the new Nicaragua Government has been disapproved of by the Administration.

The National Intelligencer states that on Wednesday last Chevalier Hulseman, who has for several years past resided in this country as Charge d'Affaires, presented his credentials to the President, and was received as Minister Resident of the Emperor of Austria. On the same day Mr. Henry Bosch presented his credentials to the Secretary of State, and was received as Charge d'Affaires of the King of the Belgians.

Steamers Burned.
St. Louis, 7th.

Three steamers were burned at our levee today. Loss $70,000. Partially insured. No lives lost.

The Southern Convention.
New York, Dec. 8.

A meeting was held in Richmond, on the 5th inst., at which a Committee was appointed, to request the Governors of the several Southern and South-Western States to attend the Southern Convention personally, and that they be requested to appoint a delegation from their several States, and the said Committee are further requested to invite the appointment of a delegation by the Board of Trade, in our various Southern and South-Western cities and towns, and such merchants and other citizens, as, in the judgment of said Committee, it would be judicious to invite. The Convention is to assemble in Richmond, on the 30th of January next.

Nominations by the President.

The Washington correspondent of the Eve. Post, writes: In the executive session this morning, a batch of nominations was received from the President, among which was not that of Lane of Oregon, as Brigadier General. Wilson Shannon was submitted for Governor of Kansas Territory, but no action was taken in regard to it.

A Counterfeiting Speculator.

Charles Chew, a speculator, was arrested today for passing counterfeit $3 bills, on the Mercantile Bank of Salem, Mass.

Escape of a Bank Robber.
Concord, N. H., 8th.

John W. Rand, the noted bank robber, broke jail a second time, in this city, last night. His escape was effected by sawing off the large iron bars of his cell and window. A large dog in the yard was found poisoned, which indicates that Rand had an accomplice outside. Active measures are taken for his recapture.

Virginia U. S. Senator.
Richmond, 8th.

Hon. James M. Mason was elected U. S. Senator, to-day, for this State, over Geo. W. Summers, American, by 53 majority, on a joint vote.

Markets.
New York, Dec. 8.

Flour. The flour market without important change; demand for home consumption and export limited; 8,75 for state; 8,75 a 9,25 for mixed to fancy; Michigan, Indiana, Wisconsin and Ohio 9,00; a 9,25 for Canadian; rye flour and corn meal quiet.

Wheat quiet. Prime to fair milling middling demand scarce; 2,25 refused for prime white southern; 2,20 for white Canadian.

Rye better and in active demand. 1,30 a 1,34.

Nothing doing in barley.

Corn steady. 98 a 1,00 for western mixed in store and delivered.

Oats lower. State and western 48 a 53.

Pork dull and lower. 20,25, for mess; 18 for prime.

Beef heavy at yesterday's prices. Beef hams and prime mess beef dull.

Green hams active at 10½.

Dressed hogs firmer; 8¼ a 8½.

Bacon firm.

Lard firm; 12¼ a 12½.

Oils. Linseed dull; small sales; 93 a 96 cts. Whale and sperm remain quiet.

Coffee firm, and in fair demand.

Molasses in active request, at full prices.

Sugars dull.

Leather quiet.

Fish dull.

Hides firm.

Iron steady. Scotch pig 31—6 months.

Lead firm.

Tobacco firm.

We observe, by the Norway Advertiser, that Mr. Alven Boody was hung in effigy at Fryeburg a few days since. Mr. Boody was principal of Fryeburg Academy, and is reported to have made himself obnoxious by his political principles. As he was a supporter of Gov. Morrill, we suppose the perpetrators of the effigy were opponents of the Governor.

Kansas. Accounts of the state of affairs in Kansas are not so full and complete as could be wished. The Louisville *Courier* of the 4th published despatches from a pro-slavery source at Independence, Mo., which state that a meeting was being held in Kansas (city) Dec. 3, to see if some measures could not be adopted "to terminate the matter peaceably if possible, but forcibly if necessary." Great excitement existed, and "overwhelming numbers" were "pouring from every direction in the territory to sustain the laws." It adds that Gen. Lane is intrenching himself and throwing up breastworks. He is also burning beacon lights which can be seen 25 miles from Lawrence, and bids defiance.

Sad Fate of a Spiritualist. "Last week a woman named Elizabeth Jewett, who formerly resided at South Boston, but who has been of late stopping in Gardiner, Me., became interested in the spiritual developements of the present day, and finally her feelings were wrought up to such a degree, that reason was dethroned. Acting as she alleged, under the direction of the spirits, she wrote a note, informing her friends that she might be found in a certain creek running into the Kennebec River near Gardiner, and leaving it in her chamber, disappeared. The body was soon found at the place she designated floating in the water, but confined by a rope tied around her waist and attached to a tree."—*Age.*

We are informed by a personal acquaintance of Miss Jewett's, that she had been insane several years, and for some time an inmate of the Insane Hospital at Augusta.—*Portland Argus.*

The municipal election in Boston takes place to-day (Monday.) There will be a sharp contest between the "Americans" and the opposition.

Two Men on Half-Way Rock. We learn that the schooner George W. Snow, Capt. Warren, bound from Bangor to Salem, as she passed half-way rock yesterday afternoon discovered two men on the rock, making signals of distress. Capt. Warren made an attempt to relieve them but was unable to do so on account of the heavy sea, which came very near swamping his boat. Finding that he could afford no assistance, Capt. Warren immediately came into this port and informed the officers of the Revenue Cutter, of the circumstances. We understand that the Cutter went down to the rock last evening.

It is supposed the men went on to the Rock for the purpose of gunning, and their boat drifted away.—*Portland Advertiser.*

The Contest for the Speakership. Horace Greeley writes to the *Tribune* as follows, on Wednesday night:

Mr. Bank's support of Mr. Campbell in the House to-day, with all the friends he could influence, was generous and wise. Mr. Banks ought to be Speaker, because he is fittest of all men on our side of the House to discharge the duties of that most responsible station. I still hope he may be; yet I understand that our Senator Brooks says he cannot, because he supported Rockwell against Gardner last month. I hear that Gov. Gardner has written a letter to this city, more cautiously worded, but meaning about the same. Mr. Pennington stood ready to do his utmost to make Mr. Campbell Speaker; but without the cooperation of Mr. Fuller's friends, nothing would avail. I should not wonder if to-night's rumor of fusion of "National men" of all hues on Fuller were to prove prophetic, but to-morrow is too early.

NEW GOODS!
Just Received, a New Stock of
Fancy Goods, Jewelry, Musical Instruments,
ROCKING HORSES, SLEDS,
and one of the Largest Stocks of TOYS
Ever offered for sale in this city. The very liberal patronage which I have received from the citizens of Bangor and vicinity since I opened my new Store on the Bridge, has induced me to open, for their examination, one of the largest Stocks of Goods in our line ever offered in this city. My aim has always been to please my customers, and to show them New and Fashionable Goods, at prices as low as they can be found in any other store in town, and by attention to business, and to the wants of the Public, I hope to receive a fair share of their patronage. My Stock is so varied I cannot enter into particulars, but among
THE LEADING ARTICLES
may be found Jewelry, Fancy Goods, Willow Baskets, Traveling Bags, Fancy Boxes, Furnished Fancy Boxes, Dressing Cases, Pearl and Leather Portemonnaies, Card Cases, Watch Stands, Silver Plated Spoons, Toy Bureaus, Secretaries, Parlors, Kitchens, China, Crockery, and Pewter Tea Setts; Backgammon Boards and Games for children; Glass Toys of all kinds.

Crystalotype Portraits.
DAGUERREOTYPES can be accurately copied by the New Photographic process, enlarged to any required size, and beautifully colored in Oil, Water, or Pastel. Portraits are obtained from the life by this process requiring no longer sitting than for a common daguerreotype, thus avoiding the serious inconvenience and fatigue of long sittings. Glass types, a new article of unsurpassed richness and durability, are now, for the first time introduced, offered to the public. Their great brilliancy and permanency renders them peculiarly suitable for Pins, Rings, &c. The Public are invited to call and examine specimens at HARDY'S Portrait Gallery, near Main street, a short distance below the Bangor House.

California Steamers,

Carrying the United States Mail,

5th and 20th of each Month.

Reduced Prices 100 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and to avoid access to the Pacific Steamers *without a ticket is impossible*. This is the only line running entire, through Tickets, including meals, on the Isthmus.

Baggage is taken *in charge, entirely free of charge*, at the residence of the passenger in open boats to Chagres and again, a run of 50 miles of Sea on Lake and river navigation, over rocks and shoals.

Arrangements have now been completed so that the regular U. S. Pacific Mail Steamer will leave Panama on New Year's, and immediately on arrival of Atlantic Mail steamers, thus securing passengers by the Mail Line a *certain and short* passage, without any detention on the Isthmus.

☞*Tickets must be obtained only of the Company's Agents before they start to encounter the Perils of Panama*, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Panama Mail Steamship Companies, in this city. C. L. BAILEY, Agent,

HARRISON'S

Columbian Tonic Stimulant

WILL cure all diseases caused by prostration of the digestive power. Its action is immediate, as a stimulant, to arouse the vital energy in its healthy force, so organic, to sustain and perpetuate the same till healthy secretions are restored and natural power returns. It will remove all mild forms of Cholera, Cholera Morbus, Dysentery, Bilious Cholic, Fever, and Fever and Ague, and in connection with *Harrison's Columbian Vegetable Emetic*, will cure the most severe cases of these and other complaints in the shortest possible time. The dose is small—immediate relief, and a permanent cure, in its use. For all Bronchial and Pulmonary affections, it has great restorative efficacy.

The alcohol and opium ingredients will find it a perfect substitute for which these diseases engender, and health-destroying articles. It is an exclusively vegetable compilation, and a pure tonic and stimulant, without the slightest debilitating property in its composition or action on the system. The friends of temperance then will find it an agent of great potency in their cause, and that the craving cravings of a diseased appetite under its use will give place to healthy action and natural desire. It it delicious to the taste, and grateful to the sensibilities of the stomach. It may be taken in its present form, a *rich syrup*, or by water, making a *delightful beverage*. As a diaphoretic, its decision *is unequalled* by any former or article of the kind.

HARRISON'S

Columbian Vegetable Emetic

Will withdraw and expel all diseased matter, solid, fluid, or gaseous, from all parts of the system. Besides its emetic properties, it is expectorant, alterative, and anodyne. It acts in each of its modes according to *nature*, relieves the laboring organism of diseased matter, and permits a free action of its natural functions to restore strength. It is the only *safe* and *certain* medicine in all severe forms of Cholera, Cholera Morbus, Bilious Cholic, Dysentery, Phthisis, and every other kindred disease. It has great remedial power in all Chronic diseases, in both acute and chronic diseases, assisted by the invigorating and sustaining power of *Harrison's Columbian Tonic Stimulant*, cures are certain. Pamphlets of treatment and directions for use accompany each medicine. Price 50 cts.

LET US REASON TOGETHER

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be Laid down by diseases and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the WEAK, the NERVOUS, the DELICATE, and the INFIRM, of all climes, ages, sexes and constitutions. Professor Holloway personally superintends the manufacture of his medicines in the United States, and offers them to a free and enlightened people as the best remedy the world ever saw for the removal of disease.

Those Pills Purify the Blood.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

Dyspepsia & Liver Complaint.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints generally. They soon give a healthy tone to these organs, however much deranged, and when all other means have failed.

General Debility. Ill Health.

Many of the most eminent Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

Female Complaints.

No Female, young or old should be without this celebrated medicine. It corrects and regulates the monthly courses, at all periods, acting as a safe guard when a change. It is also the best and safest medicine that can be given to children of all ages, and for any complaint—consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases:

Asthma,	Dropsy,	Inward Weakness,	
Bowel Complaints,	Debility,	Lumbago,	
Colics,	Fevers and Ague,	Piles,	
Consumption,	Female Complaints,	Stone and Gravel,	
Fits,	Headaches,	Secondary Symptoms,	
Fluctuations,	Indigestion,	Tumors,	
Dysentery,	Influenza,	Ulcerous Affections,	
Diarrhœa,	Inflammation,	Worms of all kinds.

G. W. STONE'S

LIQUID CATHARTIC

AND

FAMILY PHYSIC,

The most important discovery ever made in Medical Science, being a compound of Barks and Roots, which forms the most powerful, safe, and agreeable physic ever offered to the public.

THE necessity of such a medicine has long been felt both by the medical faculty and by all classes of community, and the unqualified approval given by the first physicians of the day, as well as by the public generally, to the use of this, or Dandelion Physic, is sufficient evidence of its superiority over all others. It operates directly upon the stomach, liver, and kidneys, and indirectly upon the system, and in such a mild, yet thorough manner, that no one can feel the slightest inconvenience from its use. It not only produces all the effects of a cathartic, but completely removes Rheumatic Complaints, by leaving the bowels perfectly free from bile, and carries off all humors from the blood, as a thousand cases can testify. It is needless to recommend this medicine to the afflicted, as those who have tried it will use no other. Sold by all druggists and dealers in medicine throughout the country.

☞Be sure to call for G. W. STONE'S LIQUID CATHARTIC AND FAMILY PHYSIC, and take no other.

☞Sold wholesale by the Proprietor, G. W. STONE, Bangor, Me., and by Agents throughout the country.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment, and Humor Syrup.

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

Being satisfied by more than seven years' use and observation of its wonderful powers in curing the worst cases of SCROFULA, ERYSIPELAS, and SUFFERING to be found in any kind or form, and readily convinced by these witnesses as cannot be found before the public, as we consider it the evidence of living witnesses.

Read the following—it speaks for itself.

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Me., April 21, 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. J. B. Hall & Co.—Gentlemen—In answer to your inquiries, I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, being accompanied with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters," I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and in all, after taking *only one* bottle, she is enjoying better health than she has for years. She feels no pain in her side or in any part of her body, and at times her *entirety* to the German Bitters.

WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me.

☞You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

For sale by respectable dealers and storekeepers generally.—Sold by J. S. Ingraham, Bangor; W. H. Morrell, Dexter; E. B. Fiske, Lincoln.

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR. KENNEDY, of Roxbury, has discovered in the oil of cod liver a remedy for scrofula, that cures EVERY KIND OF HUMOR, from the worst Scrofula down to a common pimple. He has tried it in over seven hundred cases, and never failed except in two. He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to purify nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the system of boils.

Two bottles are warranted to cure the worst canker in the mouth and stomach.

Three to five bottles are warranted to cure the worst case of erysipelas.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two to three bottles are warranted to cure the worst case of ring worm.

Two to three bottles are warranted to cure the most desperate cases of rheumatism.

Three to six bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken.

Nothing has ever been found able to those who have given it a fair trial, that a certain weed, growing upon the pastures, and along old stone walls, should cure every humor in the system—yet it is now a fixed fact. If you have a humor it has to start. There are no ifs nor ands about it, nursing some cases but not yours. He has peddled over a thousand bottles of it in the vicinity of Boston, and knows the effects of it in every case. What is already done some of the greatest cures ever done in Massachusetts. He gave it to children a year old, to old people of sixty, and has seen pure looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to sick headache, one bottle will always relieve, if it does not cure. It relieves great relief in catarrh and dizziness. Some who have taken it have been positive for years, and have been regulated by it. When the blood is sound it works quite easy, but where there is any derangement or the functions of nature, it will cause various feelings, but you must not be alarmed—they always disappear in from four days to a week.—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to.

No change of diet ever necessary. Eat the best you can get and enough of it.

BOXFORD, Sept. 19, 1853.

This is to certify, that I, B. HAY, Druggist, Portland, is the only AUTHORIZED GENERAL AGENT for the sale of KENNEDY'S MEDICAL DISCOVERY for the STATE OF MAINE, and that he is supplied with the GENUINE, direct from my Laboratory.

HAS ARRIVED!

The Voluntary Testimony of Living Witnesses, is that

Hayes' Allied Ointment, and Humor Syrup.

IS the BEST MEDICINE ever offered to the public for the Cure of all Humors.

Being satisfied by more than seven years' use and observation of its wonderful powers in curing the worst cases of SCROFULA, ERYSIPELAS, and SUFFERING to be found in any kind or form, and readily convinced by these witnesses as cannot be found before the public, as we consider it the evidence of living witnesses.

Read the following—it speaks for itself.

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Me., April 21, 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs. J. B. Hall & Co.—Gentlemen—In answer to your inquiries, I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed. The pain in her side was very severe, being accompanied with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters," I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and in all, after taking *only one* bottle, she is enjoying better health than she has for years. She feels no pain in her side or in any part of her body, and at times has her *entirety* to the German Bitters.

DOCTOR HOOFLAND'S

CELEBRATED

GERMAN BITTERS,

PREPARED BY

Dr. M. JACKSON, Philad'a, Pa.,

WILL EFFECTUALLY CURE

Liver Complaint, Dyspepsia, Jaundice,

Chronic or Nervous Debility, Diseases of the Kidneys and all diseases arising from a Disordered Liver or Stomach,

Such as Constipation, Inward Piles, Fullness or Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a lying posture, Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, &c.

Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil, and great Depression of Spirits.

The proprietor, in calling the attention of the public to his preparation, does so with a feeling of the utmost confidence in its virtues and adaptation to the diseases for which it is recommended.

It is now a well and universally known fact, but one that has stood the test of a ten years' trial before the American people, and its reputation and sale is unparalleled by any similar preparations extant. The testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country is immense. The following from Joseph Cowell Steele is respectfully submitted, referring as he does to a well known fact, to my Almanack, or Practical Receipt Book for Farmers and Families, to be had gratis of all the Agents for the German Bitters.

TESTIMONY FROM MAINE.

Capt. Daniel Abbot, of Guilford, Maine, July 10, 1854, says: "I was taken sick one year ago last April, upon my passage from Havana to Charleston, S. C., at the latter place I took medicine and procured a physician, but in ten days could obtain no relief, no sleep or appetite. At last taking up a newspaper having your advertisement of 'Hoofland's German Bitters' in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me as well man. I have not been without your medicine since, having been selling here in Baltimore, Charleston, and the West Indies Islands ever since. I have now given up going to sea and reside in this place, where you would have an agency, as you could sell large quantities of it."

Jos. B. Hall & Co., Presque Isle, Aroostook Co., Maine, April 21, 1854, say: "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters. We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Rhoway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the bowels. Laver and Kidneys, in a healthy discharge of their functions.

Two will insure a plentiful discharge from the Bowels, and a regular period of time every day.

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal.

Important to Pill Takers.

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Kidneys, and the *Great Depurator of the Blood* in use.

One of *Radway's Regulators* is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills.

Radway's Regulator.

Radway's Regulators are most car
